

# Crop Protection & Over Winterized Fabrics

DeWitt's **Crop Protection and Over Winterized Fabrics** provide a protective environment for your plants. Don't take a chance when winter weather threatens.....protect your crops with DeWitt Winterization Fabrics.

## Deluxe

This .5 oz. fabric keeps temperatures up to 4° higher than outside conditions and creates an excellent microenvironment for seed germination and seedling growth. In fact, this fabric provides 90-95% average seed germination compared to a 60-65% with straw.

## Deluxe Plus

This 1 oz. fabric protects vegetation from frost by raising temperatures beneath the fabric by 4° to 6°. In addition to providing protection against cold, wind, birds, insects and scorching sun, **Deluxe Plus** helps produce larger, earlier and more productive yields.

## Supreme

This 1.5 oz. fabric is ideal for protecting flowering annuals, bedding plants and vegetables from severe cold and freezing. Temperatures underneath the fabric are 6° to 8° warmer than outside conditions. Want to lengthen your harvest time and extend your flowering season? Then use DeWitt's **Supreme Crop Protection Fabric**.

## Ultimate

This ultimate 3 oz. fabric provides freeze protection 10° or greater than outside conditions. DeWitt's **Ultimate** is the most durable, effective product available on the market for "all winter" protection of your perennials and other ornamentals.

Designed to hold in heat and allow irrigation and rain to pass through, this fabric will not cause foliage burn even on sunny days.
