

Woven Ground Cover

Sunbelt

Our best! DeWitt **Sunbelt Woven Ground** cover consists of 3.2 oz. polypropylene, which resists tearing, puncturing and weed penetration. It is approved for most government weed control applications.

Sunbelt is ideal for greenhouses, outdoor displays and as a weed barrier for plantings without topical coverings where a weed free environment is a must. DeWitt **Sunbelt** is striped every 12 inches to aid in plant alignment and is UV stabilized to last even in direct sunlight.

UltraWeb 3000

By applying the latest in state-of-the-art weaving technology, UltraWeb 3000 delivers a superior UV-treated ground cover for less than the cost of common, 6-mil black plastic. That's right, UltraWeb 3000 **CAN SAVE YOU MONEY!** This unique woven polypropylene ground cover is the ideal choice for safe weed control and water conservation.

White Ground Cover

White Ground Cover is a 3.2 oz., UV stabilized, white woven polypropylene fabric. It is a strong, heavy fabric, which allows it to be more resistant to tearing, puncturing and weed penetration. **White Ground Cover** can also be used as an alternative to a frost blanket. When applied on top of plantings, it protects against light frost and cold temperatures by holding heat in during the day and by blocking wind at night. **White Ground Cover** is permeable, allowing water and nutrients to pass through. It is excellent when used in rose growing operations.

Anchor Pins

DeWitt **Anchor Pins** properly secure and anchor landscape fabrics, ground coverings and drip irrigation tubing. These special galvanized steel pins are angled at the ends for faster and easier installation. Use **Anchor Pins** to permanently and professionally anchor all of our fabrics.
